

# How to set your turf up for success.

Strategies for snow mold management with Dr. Paul Koch.

Insignia® Pro  
Fungicide

 **BASF**  
We create chemistry

You're invited to take part in a BASF webinar to learn all the ins and outs for managing snow mold to set your golf course up for success. Featuring guest speaker, Dr. Paul Koch, this informative webinar will discuss snow mold management strategies to improve disease control and turfgrass stress tolerance.

## About our speaker.

Paul Koch, Ph. D. is a professor in the Department of Plant Pathology at the University of Wisconsin. He oversees both the University of Wisconsin's Turfgrass Diagnostic Lab and the UW Turfgrass Fungicide Testing Program. Dr. Koch's research focuses on developing precision disease management strategies for snow mold and dollar spot in turfgrass, investigating the fate and impact of turfgrass pesticides in the environment, and the turfgrass microbiome.
